

PALNI KUNDRA

Biotechnology, Food Science, Nutrition, Vitamins, Metabolomics

PERSONAL STATEMENT

Driven by scientific curiosity and a commitment to advancing our understanding of bacteria, I apply my Ph.D. expertise in microbial biotechnology from ETH Zurich to pursue a postdoctoral position. With a multidisciplinary background in microbiology, biotechnology, and food science, my research focuses on the effect of vitamin B9 and B12 on the growth and metabolism in gut bacteria. I have developed skills in designing and conducting complex microbiological studies, and analyzing large-scale bacterial datasets. I am eager to expand my expertise in single-cell analysis and microfluidics to investigate non-growing bacterial states. This postdoctoral position would provide an excellent opportunity to deepen my knowledge and contribute to research in bacterial physiology, that one day can be applied on understanding microbial gut ecosystems.
